ABOUT THE EXAMINATION

The Certified Professional in Patient Safety (CPPS) credential distinguishes health care professionals who meet the competency requirements in the areas of patient safety science and human factors engineering, and who demonstrate the ability to apply this knowledge to effectively plan and implement patient safety initiatives. Candidates may include patient safety professionals, clinicians, non-clinical health care workers, executives, and other professionals with the requisite background. These professionals may work in a variety of settings, including but not limited to, hospitals, health systems, the home, ambulatory and other outpatient settings, academia, the community, and providers of service to the healthcare industry. The CPPS is open to candidates from the United States as well as practitioners outside of the U.S.

The certification exam is a rigorous and comprehensive credentialing process consisting of 110 questions, 100 of which are scored. The other 10 are pretest questions. You will be asked to answer these questions, but they will not be factored into your scored examination result. These pretest questions are dispersed within the examination and are not marked in any way. This ensures candidates answer pretest questions in the same manner as scored questions, allowing the pretest questions to be validated as accurate and appropriate before being included as a measure of candidate competency.

There are three types of questions on the exam:

- Recall: The ability to recall or recognize specific information
- Application: The ability to comprehend, relate or apply knowledge to new or changing situations
- Analysis: The ability to analyze and synthesize information, determine solutions and/or evaluate the usefulness of a solution

Only a small percentage of the exam questions are categorized as recall. The rest are divided between application and analysis.

The examination is available in a computerized format on a daily basis at PSI Test Centers across the United States and internationally and by Live Remote Online Proctoring.

TESTING AGENCY

PSI Services is engaged in educational and occupational measurement and provides examination development and administration to a variety of client organizations. PSI assists the Certification Board for Professionals in Patient Safety (CBPPS) in the development, administration, scoring and analysis of the Certified Professional in Patient Safety (CPPS) examination.

PSI Services has more than 70 years of experience providing worldwide testing solutions to corporations, federal and state government agencies, professional associations,

certifying bodies and leading academic institutions. PSI offers a comprehensive solutions approach from test development to delivery to results processing, including pre-hire employment selection, managerial assessments, licensing and certification tests, distance learning testing, license management services and professional services.

ACCREDITATION

The Certified Professional in Patient Safety™ (CPPS) program is fully accredited by the National Commission for Certifying Agencies (NCCA). Accreditation from NCCA, the Institute for Credentialing Excellence (ICE) accrediting body provides independent affirmation that the CPPS program achieves the highest quality standards in professional certification. NCCA uses a peer review process to establish accreditation standards, evaluate compliance with these standards, recognize programs that demonstrate compliance, and serve as a resource on quality certification.

NONDISCRIMINATION POLICY

PSI and CBPPS do not discriminate among candidates on the basis of age, gender, race, color, religion, national origin, disability, marital status or any other protected characteristic.

TEST CENTER ADMINISTRATION

Examinations are delivered by computer at approximately 300 PSI Test Centers located throughout the United States. The examination is administered by appointment only Monday through Friday. Saturday appointments may be scheduled based on availability. Appointment starting times may vary by location. Available dates will be indicated when scheduling your examination. Candidates are scheduled on a first-come, first-served basis.

LIVE REMOTE ONLINE PROCTORING

Examinations are delivered by Live Remote Online Proctoring to a candidate using their own computer from their home. The candidate must have a computer with a web camera that can be moved to display the entire room, a microphone, and internet connection to download the PSI secure browser. A compatibility check of the computer's audio/video, webcam and system is required prior to scheduling.

Please be advised: Using a work computer for the remote proctored exam, even one which passes the System Compatibility Check, is highly discouraged due to administrator fire walls and IT security systems which frequently prevent exam launch.

INTERNATIONAL EXAMINATION SERVICES

International candidates may book and pay for their examination through the online registration portal at <https://test-takers.psiexams.com/cbpps>.

For information regarding the availability of international computerized test centers, please visit <http://schedule.psiexams.com>. If you are an international candidate, you will need to submit a completed application form and the application fee. All rules and regulations regarding the computerized examination apply to international examinations. Examinations will be given in computerized format only. International candidates will not receive instant score reports. Results will be sent within two business days after completion of the examination to the candidate's address of record. International candidates may also view score reports through the online PSI portal.

TEST CENTER LOCATIONS

PSI Test Centers have been selected to provide accessibility to the most candidates in all states and major metropolitan areas. A current listing of PSI Test Centers, including addresses and driving directions, may be viewed at <http://schedule.psiexams.com>. Specific address information will be provided when you schedule an examination appointment.

SPECIAL ARRANGEMENTS FOR CANDIDATES WITH DISABILITIES

PSI and CBPPS comply with the Americans with Disabilities Act and strives to ensure that no individual with a disability (as defined by the ADA as a person who has a physical or mental impairment that substantially limits one or more major life activities, a person who has a history or record of such an impairment, or a person who is perceived by others as having such an impairment) is deprived of the opportunity to take the examination solely by reason of that disability. PSI will provide reasonable accommodations for candidates with disabilities. Candidates requesting special accommodations must call PSI at 800-367-1565 ext. 6750 to schedule their examination.

The site is WCAG 2.1 AA Compliant which enables any accessibility program, such as screen reader, to read the page.

1. Wheelchair access is available at all established Test Centers. Candidates must advise PSI at the time of scheduling that wheelchair access is necessary.
2. Candidates with visual, sensory, physical or learning disabilities that would prevent them from taking the examination under standard conditions may request special accommodations and arrangements.

Verification of the disability and a statement of the specific type of assistance needed must be submitted online to PSI at least 45 calendar days prior to your desired exami-

nation date by completing PSI's online form at: https://psi-cdexp.zendesk.com/hc/en-us/requests/new?ticket_form_id=360000150872. Attach the Documentation of Disability-Related Needs form (which must be completed by an appropriate licensed professional) with your online request. PSI will review the request and will contact you regarding the decision for accommodations.

MISSED APPOINTMENTS AND FORFEITURES

You will forfeit your examination registration and all fees paid to take the examination under the following circumstances. A new, complete application and examination fee are required to reapply for examination.

- You cancel your examination after confirmation of eligibility is received.
- You wish to reschedule an examination but fail to contact PSI at least two business days prior to the scheduled testing session.
- You wish to reschedule a second time.
- You appear more than 15 minutes late for an examination.
- You fail to report for an examination appointment.

INCLEMENT WEATHER, POWER FAILURE OR EMERGENCY

In the event of inclement weather or unforeseen emergencies on the day of an examination, PSI will determine whether circumstances warrant the cancellation, and subsequent rescheduling, of an examination. The examination will usually not be rescheduled if the Test Center personnel are able to open the Test Center.

You may visit www.psonline.com/openings prior to the examination to determine if PSI has been advised that any Test Centers are closed. Every attempt is made to administer the examination as scheduled; however, should an examination be canceled at a Test Center, all scheduled candidates will receive notification following the examination regarding rescheduling or reapplication procedures.

If power to a Test Center is temporarily interrupted during an administration, your examination will be restarted. The responses provided up to the point of interruption will be intact, but for security reasons the questions will be scrambled.

PREPARING FOR THE EXAMINATION

The method of preparation and amount of time spent preparing for the examination can be driven by the candidate's study preferences, level of professional and relevant experience, or academic background. Some methods of preparation may include, but are not limited to:

Review of the Content Outline and Resource List

Review the content categories and related tasks. Identify and focus review on tasks that you do not perform regularly or with which you are less familiar.

Review the resource list curated by The Expert Oversight Committee and other subject matter experts. Identify and

focus review on resources that cover content areas with which you are less familiar.

Remember that most questions in the CPPS Examination are job-related/experience-based and test the application and analysis of information rather than just the recall of facts.

Both the CPPS Examination Content Outline and Resource List can be found at www.ihl.org/CPPS.

Complete the Self-Assessment Examination (SAE)

A Self-Assessment Examination (SAE) or practice exam is an online tool created by the CBPPS to simulate the CPPS Examination. The SAE is available for purchase at <https://www.psonlinestore.com/certified-professional-in-patient-safety-practice-examination/>.

The 50-question online practice exam was developed using the same procedures as the examination, and conforms to examination specifications in content, cognitive levels, format, and difficulty. Feedback reports from the SAE show performance by domain and can be helpful in directing study and use of resources. The questions presented in the SAE are different from the questions contained on the certification examination.

CBPPS does not endorse resources designed to prepare candidates to take the certification exam. Completion of the SAE is optional and not required to take or pass the certification exam. Taking the SAE does not guarantee a passing score or improved performance on the exam.

TESTING AT A PSI TEST CENTER

Your examination will be given by computer at a PSI Test Center. You do not need any computer experience or typing skills to take your examination. On the day of your examination appointment, report to the Test Center 30 minutes prior to your scheduled testing time. COMPUTER LOGIN

After your identification has been confirmed, you will be directed to a testing carrel or the remote online exam will be released. You will be instructed on screen to enter your unique identification number. Your photograph, taken before beginning the examination, will remain on screen throughout your examination session. This photograph will also print on your score report.

PRACTICE EXAMINATION

Prior to attempting the examination, you will be given the opportunity to practice taking an examination on the computer. The time you use for this practice examination is NOT counted as part of your examination time or score.

When you are comfortable with the computer testing pro-

cess, you may quit the practice session and begin the timed examination.

TIMED EXAMINATION

Following the practice examination, you will begin the timed examination. There are 100 items plus 10 pretest items on the examination. You will have 2 hours to complete the examination. Before beginning, instructions for taking the examination are provided on screen.

The computer monitors the time you spend on the examination. The examination will terminate if you exceed the time allowed. You may click on the “Time” box in the lower menu bar on the screen to monitor your time. A digital clock indicates the time remaining for you to complete the examination. The Time feature may be turned off during the examination.

Only one examination question is presented at a time. The question number appears in the lower right of the screen. Choices of answers to the examination question are identified as A, B, C, or D. You must indicate your choice by either typing in the letter in the response box in the lower left portion of the computer screen or clicking on the option using the mouse. To change your answer, enter a different option by typing A, B, C, or D or by clicking on the option using the mouse. You may change your answer as many times as you wish during the examination time limit.

To move to the next question, click on the forward arrow (>) in the lower right portion of the screen. This action will move you forward through the examination question by question. If you wish to review any question or questions, click the backward arrow (<) or use the left arrow key to move backward through the examination.

An examination question may be left unanswered for return later in the examination session. Questions may also be bookmarked for later review by clicking in the blank square to the right of the Time button. Click on the double arrows (>>) to advance to the next unanswered or bookmarked question on the examination. To identify all unanswered

and bookmarked questions, repeatedly click on the double arrows (>>). When the examination is completed, the number of examination questions answered is reported. If not all questions have been answered and there is time remaining, return to the examination and answer those questions. Be sure to provide an answer for each examination question before ending the examination. There is no penalty for guessing.

CANDIDATE COMMENTS

During the examination, you may make comments for any question by clicking on the Comment button to the left of the Time button. This opens a dialogue box where comments may be entered. Comments will be reviewed, but individual responses will not be provided.

FOLLOWING THE EXAMINATION

After completing the examination, you are asked to answer a short evaluation of your examination experience. Your results will be provided on screen and an official score report will be sent to your email address as a PDF after the examination session ends.

SCORES CANCELLED BY CBPPS OR PSI

PSI is responsible for the validity and integrity of the scores they report. On occasion, occurrences, such as computer malfunction or misconduct by a candidate, may cause a score to be suspect. CBPPS and PSI reserve the right to void or withhold examination results if, upon investigation, violation of its regulations is discovered.

PASS/FAIL SCORE DETERMINATION

CBPPS uses a criterion-referenced methodology in scoring the certification examination. With this type of scoring methodology, there is no “curve,” and candidates do not compete against one another. Instead, candidate performance is compared to the criterion of acceptable practice of a qualified patient safety professional. The passing score for the examination is determined by using a process known as the Angoff method, in which experts in the field estimate the difficulty of each item on the examination for the minimally qualified candidate. These judgments are averaged to determine the minimum passing score, which represents the amount of knowledge a minimally qualified candidate would likely demonstrate on the examination. A statistical process called equating is used to adjust for the slight variations in difficulty that can occur among multiple test forms (versions of the examination). These steps help ensure that all candidates are held to the same standard of performance. This process is used to ensure fairness to all candidates.

Your pass/fail result is based on your total score. Content area scores are provided to offer a general indication of your relative strengths and weaknesses in each content area. The examination is designed to provide a consistent and precise determination of your overall performance and is not

designed to provide complete information regarding your performance in each content area. This information should only be used as feedback for your future educational needs.

IF YOU PASS THE EXAMINATION

If you pass the examination, you will be able to use the CPPS designation to indicate certification status. Recertification will be required every three years.

IF YOU DO NOT PASS THE EXAMINATION

Unsuccessful candidates may retake the examination after a 30 day wait period. The candidate is required to reapply to PSI and remit all applicable fees and documentation. The candidate may retake the exam up to three (3) times in a one-year period. If the candidate fails the exam on the third attempt, they must wait one year to take the exam again. The waiting period is designed to allow the candidate time to review the exam content and prepare for the exam.

FAILING TO REPORT FOR AN EXAMINATION

If you fail to report for an examination, you will forfeit the registration and all fees paid to take the examination. A completed application form and examination fee is required to reapply for examination.

CONFIDENTIALITY

Information about candidates for testing and their examination results are considered confidential. Studies and reports concerning candidates will contain no information identifiable with any candidate, unless authorized by the candidate.

DUPLICATE SCORE REPORT

You may purchase additional copies of your results at a cost of \$25 per copy. Requests must be submitted to PSI in writing. The request must include your name, unique identification number, mailing address, telephone number, date of examination and examination taken. Submit this information with the required fee payable to PSI Services Inc. in the form of a money order or cashier's check. Duplicate score reports will be mailed within approximately five business days after receipt of the request and fee. Requests must be submitted within one year of your examination to be processed.

RECERTIFICATION

Following successful completion of the CPPS examination, the certificant is required to maintain certification by fulfilling continuing education (CE) requirements, or through successful retest.

Recertification cycle: 3 years

CE requirement: 45 hours total

Accepted types of CE:

- All CE that follows the CPPS content outline is accepted.
