Benefits Worksheet: Your Organization's Benefits

Specific Needs	How CPAFH Meets the Need
Strengthen alignment with 4Ms Framework	CPAFH exam domains cover assessments, interventions, and practices essential for age-friendly care transformation.
Advance age-friendly practices	Certification validates competencies related to age-friendly care and affirms your ability to provide safe, person-centered care across settings.
Support strategic initiatives	CPAFH aligns with national age-friendly care standards and frameworks, including the 4Ms Framework.

Benefits Worksheet: Additional Benefits

- **Grounded in the 4Ms Framework:** The CPAFH is built on the 4Ms (What Matters, Medication, Mentation, and Mobility), the essential elements of high-quality, age-friendly care. These principles are woven throughout the certification exam, reinforcing their application in every aspect of your practice.
- **Backed by Trusted Leaders:** Developed as a part of the [Age-Friendly Health Systems](#) initiative by IHI, The John A. Hartford Foundation, the American Hospital Association (AHA), and the Catholic Health Association of the United States (CHA), the CPAFH credential is grounded in evidence, driven by practice, and aligned with the proven Age-Friendly Health Systems framework.
- **Designed to Demonstrate Real-World Skills:** The CPAFH credential covers critical areas of knowledge and skills, from geriatric syndromes, medication management, and care transitions to interdisciplinary collaboration and culturally responsive communication, all aligned with the 4Ms Framework.
- **Accelerate Career Growth:** Stand out as a leader in age-friendly care. The CPAFH credential demonstrates your dedication to improving health outcomes and experiences for older adults, while confirming your competencies and boosting your qualifications for advancement.
- **Improve Outcomes, Equity, and Experience:** This credential assesses the ability of professionals across disciplines to provide personalized, age-friendly care, support caregiver needs, address social determinants of health, and improve equity for older adults in all care settings.
